

MARYCHO ALTAMIA URETA

PROFESSIONAL SUMMARY

Software Developer with hands-on experience developing, enhancing, and maintaining internal government systems using VB.NET, OpenRoad, and Actian Ingres Database. Proficient in software development, debugging, application support, system enhancements, stored procedures, and database operations throughout the software development lifecycle. Seeking to transition into a modern software engineering role where I can leverage my backend development experience, expand my technical skills, and contribute to a collaborative development team while continuously learning new technologies.

WORK EXPERIENCE

IT Support Assistant (Programmer)

October 2022 – Present

DBPSC — Home Development Mutual Fund, Philippines

- ▶ Developed and maintained internal government systems using VB.NET, OpenRoad, and Actian Ingres Database to support housing loan processes.
- ▶ Implemented system enhancements and new functionalities based on business requirements.
- ▶ Created and modified database queries, stored procedures, and reports to support system operations and data processing.
- ▶ Performed debugging and bug fixes during testing and production environments.
- ▶ Provided application support and resolved system-related issues reported by end-users.
- ▶ Participated in system testing, deployment activities, and post-implementation support.
- ▶ Collaborated with QA, business analysts, and end-users for requirements gathering, system validation, and process improvements.
- ▶ Prepared technical documentation and system change endorsements to support project implementation and maintenance.

INTERNSHIP

System Analyst Intern

October 2021 – April 2022

JTV Security Agency

- ▶ Contributed to the development of a web-based payroll and attendance management system with QR code functionality using Progressive Web Application (PWA) technologies.
- ▶ Assisted in system design, development, and deployment of capstone project.

EDUCATION

Bachelor of Science in Information Technology

2022

Quezon City University

Information Communication Technology — Computer System Servicing Strand

2018

Cielito Zamora Senior High School

TRAININGS & SEMINARS

- ▶ Developing Web Applications with JavaScript, HTML5, and CSS — Oracle MyLearn (2025)
- ▶ SQL Experts — MongoDB (2025)
- ▶ Introduction to OpenRoad Application — Dsource Inc. (2023)
- ▶ Introduction to Actian X and Ingres SQL — Dsource Inc. (2023)

TECHNICAL SKILLS

Languages	VB.NET
Databases	Actian Ingres Database, SQL Server, MySQL
Tools & IDEs	Visual Studio, OpenRoad, VS Code, Sublime Text
Design	Adobe Photoshop, Adobe Illustrator
